Dear Friends:

As I looked through the images and accessories we’re featuring in this spring mini, I found fresh products on page after page. Doodling is especially hot right now, although it’s always been a popular look for people who doodled! I’m thrilled with the chance to add doodling to my stamping options. And with an alphabet, numbers, and two image sets that all coordinate, we’ve got plenty of doodling choices!

That’s not all you’ll find here. Just keep turning the pages to see sets and accessories that reflect the latest trends. There’s something for everyone!

Shelli Gardner
Cofounder and CEO

hardly a day goes by that I don’t look at you, Carter, and wonder who you will be when you grow up. Will you end up being as tall as your dad? I bet you will. judging by how tall you are now. I could barely get you to sit still for the pictures you were having such a good time playing. i wonder what you will be like when you are ten. things like how much better you will be at your math. how for certain you will be more like your mom. all the while wondering if the boy next door will ever even notice you.

all grown up!
