dear friends

This is an exciting twentieth-anniversary catalog—we're offering a greater variety of styles, images, and products than we ever have before. There's something that will appeal to everyone, from big and bold images to delicate line art, from traditional to contemporary, from whimsical to tender. What a wonderful way to celebrate this milestone!

This is also the first catalog where my full Shelli’s Signature Collection appears. We launched it in our Holiday Mini Catalog, but this is the first complete offering, with several stamp sets and accessories, and even a wheel! I enjoy getting more involved in the creative process of these items.

Be sure to check out our Big Shot™ (page 193), along with the full line of die cuts—some exclusive to Stampin’ Up!® while others are from Sizzix®’s line of dies. I love what I’ve been able to create with this exciting tool!

And another thing worth pointing out—all stamp sets are die cut! We thought you’d like that!

One final thing I am thrilled about is all the coordination that I see in this catalog. We have punches that coordinate with sets that coordinate with Designer Series paper that coordinates with ribbon that coordinates with... well, you get the picture. Offering coordinating products makes creating so much easier; faster, and simpler for those of us who are looking to save time yet still create eye-catching works of art.

While these are all terrific ways to celebrate our twentieth anniversary, the biggest reason for celebrating is our relationship with you! Thank you for letting us share our creative ideas and products with you. Here’s to the next twenty years!

1
step 1
Pour a little bleach onto a folded paper towel.

2
step 2
“Ink” the stamp with the paper towel as if it were an ink pad.

3
step 3
Stamp the image.

4
step 4
Use our heat tool (page 186) to set the image.

Stamping with Bleach

Create a one-of-a-kind look by stamping with bleach instead of ink. This technique produces unique results on each color of card stock. Try it with different colors to see what you like best, then use it to create distinctive stamped images. No two are alike! Ask your demonstrator to show this technique at your next workshop.
